Summary

I'm a bold, innovative, and hard-working Computer Science student at Northeastern University. A natural problem-solver and passionate about technology, I can often be found at my computer, building web applications or messing around with whatever technology grabs my interest at the time. I'm an excellent communicator, and am always up for whatever challenge comes my way.

Education

Northeastern University – Fall 2019 – Present

- Computer Science, BSCS | Entrepreneurship, Criminal Justice Minors | 3.9 GPA | Dean's List Fall 2019, Spring 2020 | Director of Engage, Entrepreneurs Club
- Relevant courses: Fundamentals of Computer Science I, Discrete Structures, Fundamentals of Computer Science II, Object-Oriented Design (Fall 2020), Computer Systems (Fall 2020)

Technology Stack

- **Front End:** HTML, CSS, Bootstrap, Javascript
- **Back End:** Node.js, Express, MongoDB, Golang, Python, Java
- **Other:** Docker, Kubernetes, Cypress, Git, Github, Jira, Agile Methodology, REST APIs, Heroku

Professional Experience

Software Engineering/Application Development Intern—Centene Corporation (Fortune #42, NYSE: CNC)

May 2020 – August 2020

- Gained experience in software development and deployment
- Updated and maintained Centene's 'Member Dashboard', an outward facing Angular application that displays a member's information to their respective Care Provider
- Wrote extensive End to End tests using Cypress, a Javascript testing framework
- Utilized Golang to add multiple API Wrapper endpoints onto the "Centene Health Platform"
- Deployed changes made to the application to the cloud using Docker and Kubernetes

Freelance Web Developer—Self-Employed

June 2020– Present

- Skillset lies in building modern, outward-facing web applications, including ecommerce sites, blogs, social media-like sites, etc, using Node, Express, and MongoDB
- Some of my work includes caribbeanclearstlouis.com, a site for a pool servicing company, as well as a t-shirt charity site for a friend and a React blog application as part of buildforblacklives.com (both of which are under construction right now)

Activities/Hobbies

- Northeastern's Entrepreneurs Club –Director of Engage, where we hold biweekly
- Taking online courses- have completed The Web Developer's Bootcamp (from Udemy), and am currently working my way through 'The Complete iOS App Development Bootcamp'
- Club Ultimate Frisbee- Northeastern University
- Long-distance running- trained for a half marathon in early 2020, over 200 miles total in 2.5 months, only for it to be cancelled because of COVID-19
